

Teenager's Bedroom Suite

This dream bedroom suite for a sophisticated teen includes unique finishes and special nooks and storage areas for her collections. The custom bed includes etched glass created by an artist to highlight a collection of treasured books. A collection of miniature glass animals stands out against a charcoal grey recessed, illuminated shelf. A third corner of the room is the perfect study location, with hidden storage for paper and printer. The palette of cool blues and warm browns makes the suite a unique and inviting retreat.
